

frontend/node_modules
/@parcel/watcher/src
/Signal.hh

```
graph TD; A["frontend/node_modules  
/@parcel/watcher/src  
/Signal.hh"] --> B["mutex"]; A --> C["condition_variable"]
```

The diagram illustrates a dependency structure. At the top is a dark gray box containing the file path 'frontend/node_modules /@parcel/watcher/src /Signal.hh'. Two blue arrows originate from the bottom of this box and point downwards to two separate light gray boxes. The left box is labeled 'mutex' and the right box is labeled 'condition_variable'. This indicates that 'Signal.hh' depends on both 'mutex' and 'condition_variable'.

mutex

condition_variable
